PROFESSIONAL SUMMARY

A technically proficient and detail-oriented final-year Graduate specializing in computer hardware infrastructure, system administration, and advanced data operations. Possesses deep operational expertise in the MS Office Suite alongside solid programming foundations in Java, C, and HTML. Proven ability to minimize system downtime through proactive hardware diagnostics, manage high-volume database integrity, and streamline digital workflows in demanding technical environments.

TECHNICAL EXPERTISE

MS OFFICE & DATA OPERATIONS

- Advanced MS Excel: Expert utilization of VLOOKUP, HLOOKUP, Pivot Tables, conditional formatting, complex logical formulas, filtration, and automated tracking.
- MS Word & PowerPoint: Advanced document formatting, native mail merge execution, corporate report drafting, and presentation design.
- Data Management: Alphanumeric entry with high accuracy, structured archiving, verification protocols, and secure cloud storage management.
- Typing Efficiency: 40 WPM with 98%+ accuracy in English.

HARDWARE, OS & PROGRAMMING

- Hardware Diagnostics: Deep understanding of PC architecture, custom assembly, hardware testing, and system component upgrades (RAM, NVMe).
- Operating Systems: Comprehensive environment deployment across Windows and Linux platforms with command-line terminal utilities.
- IT Infrastructure: Driver installations, peripheral configuration (Printers/Scanners), and local network verification.
- Programming Foundations: Core Java, C programming, and structural HTML layout.

CERTIFICATIONS & COURSEWORK

Software Development Foundations

Data Structures & Algorithms Foundations

GeeksforGeeks Coursework

Advanced Computer Applications Operations

Office Automation, Network Protocols & Database Structures

Technical Module Completion

TECHNICAL EXPERIENCE & PROJECTS

Technical Infrastructure & Systems Management

Data Systems Solutions

- Developed custom automated Excel spreadsheets utilizing mathematical and lookup formulas to clean raw data, filter out input anomalies, and structure massive data sets.
- Executed clean installations of Windows and Linux operating systems, configured BIOS virtualization/boot properties, and implemented secure continuous backup regimes.
- Actively diagnosed physical hardware errors, executed physical component upgrades (NVMe/RAM installations), and troubleshooted network links to eliminate machine downtime.

Project-Based

EDUCATION

Graduation (Bachelor's Degree)

Nalanda open university • Patna, Bihar

Pursuing (Final Year)

Higher Secondary Certificate (12th Grade)

F.N.S Academy

Completed

PERSONAL PROFILE

Father's Name: Mr. Shankar Saw

Date of Birth: March 7, 2005

Languages: English, Hindi (Professional Fluency)

Declaration: I officially state that the technical skills, educational background, and credentials provided inside this resume are structurally authentic, correct, and verified to the best of my knowledge.
